

# SPOTLIGHTS come together...

My two Alma Maters, the University of Hong Kong and Wah Yan College, Kowloon, have long been established in Hong Kong. Three years ago, the former celebrated its 90th birthday. This year, the latter celebrates its 80th. Throughout the decades, they have nurtured the best people to serve the community. When 80 Wah Yan members were selected and featured in "Starlight at No 56", it was noted that many of them reunite in another family, the HKU Family. The values enshrined in Jesuit and HKU education echo each other and shape these individuals in a parallel manner. Their dual memberships are like when two spotlights meet, they shine brighter than ever.
