Digitising HKU theses on Web

HKU Libraries have been invited to participate in a national China project to digitise Chinese and English language books funded by China Ministry of Education and USA National Science Foundation. One of our contributions is to digitise the 12,000 theses written by HKU students so that the theses can be accessed through Google and other well-known search engines by possible collaborators, publishers and employers worldwide. But, if you do not want your thesis/theses to be included in this project, please send us a note indicating your
