Executive Committee 2015 - 16

President	Ir CHAN Wing Kin, Alfred, BBS 陳永堅工程師
Immediate Past President	Ir WAI Chi Sing, GBS, JP 韋志成工程師太平紳士
Vice President (Event and Programme)	Ir POON Wai Yin, Paul 潘偉賢工程師
Vice President (Alumni Affairs)	Ir LUK Wai Hung 陸偉雄工程師
Vice President (Student Affairs)	Ir CHAN Yiu Ming 陳耀明工程師
Vice President (Administration and Finance)	Ir CHAN Man Kin, Ken 陳文健工程師
Hon. Secretary	Ir HO Pan Wai, Peter 何斌偉工程師
Hon. Treasurer	Ir LAM Ho Yin, Steve 林浩賢工程師
Member	Mr FUNG Man Kit, Daniel 馮文傑先生
Member	Ir CHAN Yuen Man, Stephy 陳苑雯工程師
Member	Mr CHEUNG Ngai Hang 張毅恆先生
Member	Mr NG Ho Chuen, Kenny 吳灝泉先生
Honorary Life President And Special Advisor	Ir Dr Joseph CHOW Ming Kuen, OBE, JP 周明權博士工程師太平紳士

Message from President

Dear Engineering Alumni and Friends,

It has been my great honour and pleasure to serve our Association as President of the session 2015-2016, especially in the year which celebrates the 40th anniversary of the Association's establishment. I have enjoyed working with the enthusiastic, passionate and talented team on the Executive Committee, and it has been a wonderful year to be associated with alumni and students. Let me just highlight some of our major achievements.

On 8 January 2016, HKUEAA held its 40th HKUEAA Annual Dinner and Dance at The Mira Hong Kong with 326 alumni and guests attending. The theme of the event was "Somewhere in Time", going back to the 70s. The hall was filled with the joy of seeing old friends while establishing new friendships. The event raised a record breaking \$330,000 for the HKUEAA scholarship and the future development of the Association. It was a wonderful evening which will be remembered for a long time. In recognition and appreciation of the significant contribution to the Association made by our Founding President, Ir Dr Joseph Chow, we honoured Ir Dr Chow as Honorary Life President, recognizing his outstanding leadership and dedication towards the Association over four decades.

We continued with our yearly programme for students – the Graduate Mentor Scheme (GMS) which is jointly organized by H.K.U. Engineering Alumni Association (HKUEAA) and Engineering Society, HKUSU (ENS, HKUSU). This is one of the most important annual events where engineering students and mentors meet for the first time. The mentors are HKU alumni who are prominent figures in both engineering and non-engineering fields. Past experience demonstrated that the privileged mentees have been enlightened and inspired by our mentors through their guidance, and have become better equipped to face the challenges ahead because of the GMS. This year, around 50 mentors joined the scheme with more than 60 engineering students selected as mentees. We also organized outdoor activities during the year enabling the mentors and mentees to get along and share their personal experience.

To express our appreciation of mentors' efforts on the GMS, we sponsored a casual dinner for mentors who were also joined by Executive Committee members.

Message from President

Other events and activities we organized include seminars, career talks, technical visits, hiking, etc., to suit the different interests of alumni. We organized the “Industry Gathering: Civil and Development” in May to provide an occasion for alumni from the same professional field to meet and exchange views. The industry gatherings always receive enthusiastic response and attendance.

To bring alumni and their families together to have fun on the HKU campus while learning about some of our alma mater’s latest developments, we also organized the “HKUEAA 40th Anniversary School Gala and Mega Sale” on 18 June 2016. We arranged game booths, lucky draws and a sale of discounted products. We also organized a Campus Orienteering Challenge for alumni and their family members. The highlight of the event was the Time Capsule and Prize Presentation Ceremony. The time capsule was handed over to the Engineering Society of HKU to be opened at the 45th Anniversary of HKUEAA. The Gala proved to be an exciting event filled with cheers and laughter and attended by over 200 participants.

Throughout the past four decades, our Association has built strong ties with the Faculty and the University. We need this continuous support so that we can do more for the students, the alumni and our Association.

The strength of the HKUEAA comes from its alumni membership. I take pride in announcing that over the past year we exceeded the 1,000 membership mark. It is a significant milestone for us. The more members we have, the stronger the networking platform we can build and the more events and activities we can organize for the well-being of the HKU Engineering students and alumni.

We are very grateful to our sponsors and donors who have year-on-year supported our work and development.

Last but not least, I would like to express my heartfelt gratitude to all members of the Executive Committee for their unfailing support and invaluable contributions and wish the Executive Committee all success for the coming session.

Our 42nd AGM will be held on 19 August 2016. I look forward to seeing you there!

Ir CHAN Wing Kin, Alfred BBS
President
HKUEAA
Session 2015-2016

Messages from Executive Committee

Ir Paul Poon

Vice-President (Event and Programme)

As an engineering graduate from HKU, it is always my pleasure to serve the HKU Engineering family. Last year, I am honoured to be invited to join HKUEAA as the Vice President – Event & Programme.

The first job I had for this position was to organize the Annual Dinner and Dance. In light of the 40th Anniversary of HKUEAA, we would like to make this year Annual Dinner and Dance a wonderful and special occasion to reconnect alumni and friends, and an opportunity to reflect on our history and look into the future. Therefore we chose “Somewhere in Time” as the theme of our event.

With the joint efforts of the President, Immediate Past President, Life Honourable President, Exco Members, as well as our sponsors, we were able to achieve record-breaking participation rate. Over 300 guests, alumni and friends had joined the Dinner held in Mira Hotel on 8 Jan 2016. Moreover, we had raised a generous amount of sponsorships and funding for supporting HKU engineering students and for the development of the Association. We had a great evening celebrating our past achievements, as well as reminisce our joyful moments as part of the HKU engineering family.

Next on 18 June 2016, we organized School Gala & Mega Sale at our beloved HKU campus. More than 200 alumni, students, friends and families participated in a series of activities, including Campus Orienteering Challenge, lucky draws, game booths and mega sales of discounted products. Our members had a great time together with their families and friends. Moreover, to commemorate our 40th Anniversary, we put our messages and items of significance inside a time capsule. This capsule will be re-opened 5 years later for us to review the development of HKUEAA.

Last but not least, I would like to express my gratitude to all members of the Executive Committee, Organizing Committees, alumni and friends for their unreserved support and contribution to HKUEAA. I hope to see you again soon in our future events.

Messages from Executive Committee

Ir WH LUK
Vice-President (Alumni Affairs)

It is my pleasure to serve HKUEAA as one of the Vice Presidents of HKUEAA for alumni affairs. Our executive committee members in this session are very energetic with lots of innovative ideas. We introduced some new activities for our alumni in this year including industrial gatherings for civil engineering and development, spring hiking with more than 150 participants. They provide good platforms to old friends for gathering, and our alumni could also update their knowledge in a relaxing manner. I appreciate very much to the efforts from all executive committee members and supports from all participants and sponsors!

To further expand the networks and provide better support among our alumni, we are arranging the representatives system among different class and companies and organizations. If you, your friends or your companies/organizations are interested in being/nominating representatives, please don't hesitate to contact us! All your support are crucial to our success for our events.

Messages from Executive Committee

Ir YM CHAN

Vice-President (Student Affairs)

I continue serving HKUEAA for a third year in looking after student affairs activities, namely Graduate Mentors Scheme (GMS), Career Developments and Overseas Study Tour, with the leadership of Ir. Alfred Chan as our President. This year again is a successful year for the student affairs events, in particular the GMS, Career Developments activities and the Japan Study Tour, with the full and unfailing supports from the chairpersons and helpers of various sub-committees. I would like to thank these chairpersons, Dr Seakay Xie, Mr. Vincent Lau, and Mr. Kenny Ng for their leadership and contributions for these events. Also, I would like to express my greatest and warmest appreciations to Ms Stephy Chan who is the Coordinator of the Student Affairs branch, helping me in various matters in making all activities sailing smoothly.

In this year, our chairpersons and helpers are from various disciplines, such as environmental, electrical, mechanical, civil, and gas. This enriches us in various fronts of the society during our discussions for the student affairs activities.

Messages from Executive Committee

Ir Peter P.W. HO

Honorary Secretary

It is my great honour for my second year serving HKUEAA as Honorary Secretary. Through my contribution in the operation and administration of HKUEAA, I appreciated its role in various important events it initiated, which provide fruitful supports to our alumni for developing personal network and also to both undergraduates and fresh graduates for the development of both technical knowledge and social skills. These are very essential for successful development of both career and daily life for our current and future alumni.

I also continue to be a mentor in the Graduate Mentor Scheme (GMS). Through the GMS activities (e.g. mentors & mentees' gathering, mentors' night, etc.), I am deeply touched by other heartfelt alumni who squeeze their own spare time to share their stories and insights with HKU's engineering students, and I am also deeply impressed by the students who are eager to learn from their mentors.

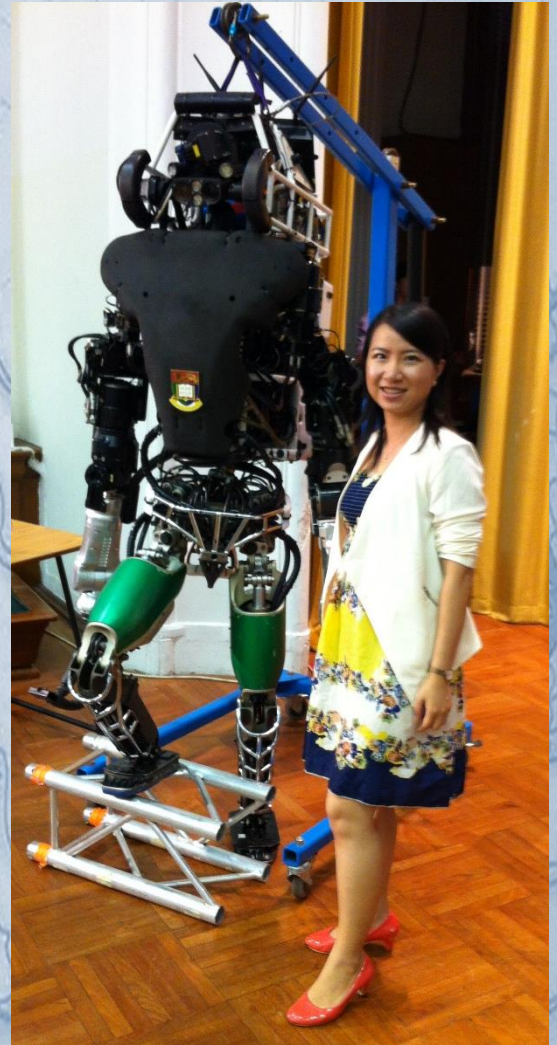

Messages from Executive Committee

Ir Stephy Y M CHAN
Ex-co Member, Student Affairs

This year, I served as a role of backup support for Student Affairs. I was very glad to witness the rapid development of familiar faces in event planning and management, and to be inspired by the innovation and energy from the new blood.

I would like to take this opportunities to thank all members of Student Affairs, especially Ir Y M CHAN, Dr Seakay XIE, Mr Vincent LAU, Ms. Grace TAM, Mr Milton CHAN, Mr Oliver TSE, and Ms. Keiko KAM.

Messages from Executive Committee

Mr. Kenny H C NG
Ex-co Member, Event and Programme

This is my 4th year to serve as an EXCO member for HKUEAA! With the strong bonding among all members, it is the place where we can learn and support each other. My experience here was immensely fruitful as I have built invaluable friendship and polished my skills such as critical thinking, leadership and innovation by taking different roles and responsibilities. I would like to take this opportunity to thank all the members and senior EXCO members for their trust and faith in me throughout the year!

Our family has gone from strength to strength over the years! It is always encouraging to see the support from our active alumni! Being a PIC of the overseas study tour to Japan and an OC of 40th Annual Dinner & Dance, I witness how supportive our alumni and friends were! We both received an overwhelming feedback and particularly, we had full house participation with a record-breaking sponsorship for the Annual Dinner! Thank you for all their involvement and the dedicated efforts of our energetic and passionate organizing team!

Here is a platform that you can find a myriad of opportunities to enrich your life and contribute back to our Alma Mater. I would like to call out all recent graduates to join us as your input would be indispensable in accomplishing our goals. Don't hesitate to come and explore the vast opportunities ahead with us! I am very looking forward to seeing each of you soon in the coming HKUEAA events!

Activities of the year

HKUEAA 40th Anniversary School Gala and Mega Sale

On 18th June 2016, HKUEAA and the Engineering Society of HKU co-organized the HKUEAA 40th Anniversary School Gala and Mega Sale at the University Campus. More than 200 alumni, students, families and friends gathered at our alma mater to celebrate the 40th Anniversary of HKUEAA and also to enjoy a fun and exciting weekend.

At the School Gala, we arranged a series of exciting activities, including game booths, lucky draws and mega sale of discounted products. In particular, we organized a Campus Orienteering Challenge for our alumni and their family members to explore the HKU campus and solve interesting puzzles. Moreover, a CLP Green Studio was stationed for all the participants to experience the new 4D movie about climate change and the importance of energy conservation.

The highlight of the event was the Time Capsule and Prize Presentation Ceremony. To commemorate the 40th Anniversary of HKUEAA, a time capsule was prepared to store items of significance, such as the booklet and photos of HKUEAA 40th Annual Dinner and Dance, a map of HKU campus, and messages written by all our Ex-Com members and engineering alumni. This time capsule was handed over to the Engineering Society of HKU and will be re-opened during the 45th Anniversary of HKUEAA.

Also at the Ceremony, our Guest of Honour Prof. Norman Tien, Dean of Engineering, presented prizes to the winning teams of the Campus Orienteering Challenge to reward their efforts and teamwork. It was then followed by a grand lucky draw, hosted by our President Ir Alfred Chan and Vice-President Ir Paul Poon.

The School Gala and Mega Sale was an exciting event filled with cheers and laughter. We sincerely thanks all guests and alumni for your support and participation!

Activities of the year

HKUEAA 40th Annual Dinner and Dance

The HKUEAA 40th Annual Dinner and Dance was held successfully at The Mira Hong Kong on Friday, 8th January 2016 with the theme “Somewhere in Time”. It was the highlight of the HKUEAA’s 40th Anniversary events which brought alumni, teachers, students, scholars and friends together. Also, it acted as a great chance to raise much needed funds for our scholarship and Alumni Association development.

We attracted full-house participation with over 300 alumni and friends joining the dinner with us! We were grateful for the presence of Mr Paul Chan Mo-po (Secretary for Development), Prof Peter Mathieson (Vice-Chancellor of HKU), Prof Norman Tien (Dean of Engineering, HKU), Ir Dr Lo Wai-kwok (Legislative Councillor, Functional Constituency - Engineering), Mr Frankie Yick Chi-ming (Legislative Councillor, Functional Constituency - Transport), Ir Chan Chi-chiu (President of HKIE), Prof Tsui Lap-Chee (former Vice-Chancellor of HKU), Prof Cheng Yiu-chung (former Vice-Chancellor of HKU), Senior Government Officials, Past Presidents of the Alumni Association and CEOs from the Engineering industry. The fun-filled evening started with sharing from the Ex-Co members and guests, followed by table games, trophy and scholarship presentation, Joe Junior’s singing show, Towngas group singing performance, our famous lucky draw and floor dancing.

In recognition and appreciation of our alumnus, Ir Dr Joseph Chow’s highly significant contribution to the Alumni Association, we honoured him as our Honorary Life President for his outstanding leadership and dedication at the evening.

Chats and exchanges of the latest news at the tables were only disturbed by the consumption of the delicious dinner. We would like to express our sincere gratitude to all guests and sponsors for their overwhelming support!

Activities of the year

Spring Hiking - Shing Mun Reservoir Walk

HKUEAA Shing Mun Reservoir Walk was successfully held on 6th March 2016. Commencing from the Pineapple Dam, participants had a good time hiking around the reservoir with the nice weather. With the informative introduction by Mr. Kwan Sek Yiu, who worked in WSD before his retirement and also helped as the tour leader, the 3-hour tour gave all participants a good chance to stay close to nature and understand more on the use of reservoir.

Activities of the year

HKUEAA Industry Gathering - Civil and Development

The gathering was successfully held on 19 May 2016. We were honoured to have following persons as our guests of honour:

- (1) Ir. YING Tsie Cheong Executive Director, Paul Y. Construction Co. Ltd;
- (2) Ir. SHUM Chun Kin, Tony, Former Chairman, Asia Pacific of AECOM, Founding Chairman, Engineering & Construction Evangelical Fellowship;
- (3) Ir. Hon Chi Keung Permanent Secretary for Development (Works), Development Bureau.

Overwhelming responses from students and alumni were received. Participants had an enjoyable and fruitful evening with the earnest sharing by our Honorary Guests.

Activities of the year

Graduate Mentor Scheme (GMS)

The GMS is jointly organized by H.K.U. Engineering Alumni Association (HKUEAA) and Engineering Society, HKUSU (ENS, HKUSU), and the Faculty of Engineering HKU. It is one of the most important annual events for the engineering students and alumni, it cultivated intimate and long lasting relationships amongst students and graduates, and has provided a platform for mutual sharing and support. Our mentor database has over 120 HKU alumni who are prominent figures in both engineering and non-engineering fields. Among these honourable mentors, some have been supporting this programme for 15 years.

Our privileged mentees have been enlightened and inspired by our mentors through their guidance, and well-equipped to face the challenges ahead because of the GMS. In these 15 years, we are happy to see the knowledge, attitude, and spirits have been passing down from mentors to mentees.

Mentors and Mentees Hiking

About 10 mentors and mentees joined the hiking to the Lung Fu Shan on 7 November 2015, which is also the information day of HKU. Mentors and mentees hiked from HKU to the Peak, then to Pokfulam Country Park. After appreciating the beautiful scenery of the Peak and Pokfulam Reservoir, the hiking was ended with a nice meal in Rome Cafe of Graduate House at HKU.

Activities of the year

Mentors Night

To express our appreciation to mentors' effort on the GMS, a causal dinner which was fully sponsored by the HKUEAA was held at Harbour Plaza Hotel at North Point on 20 January 2016. Mentors and exco members shared experience and had a joyful dinner.

Activities of the year

GMS Inauguration Ceremony 2016

The remarkable Inauguration Ceremony on 9 April 2016 was kicked off by an inspiring opening speech delivered by Ir Alfred W K CHAN, BBS (President of HKUEAA). Prof. Francis LAU (Associate Dean, Faculty of Engineering) and Ms. Kasey LIN (Chairperson, ENS, HKUSU, Session 2015 – 2016) shared their views and expectation on the GMS 2016. Other guests of honours included Ms. Janet CHUNG (Director (Alumni) of DAAO HKU), Ir Y M CHAN (Vice-president of HKUEAA (Students Affairs), Session 2015 – 2016), Ir W H LUK (Vice-president of HKUEAA (Alumni Affairs), Session 2015 – 2016), Ir Ken M K CHAN (Vice-president of HKUEAA (Administration and Finance), Session 2015 – 2016), and Ir Paul Poon (Vice-president of HKUEAA (Event and Programme), Session 2015 – 2016).

After the ceremony, participants enthusiastically joined the tea gathering organized at Postgraduate Hub in HKU Graduate House. All mentors and mentees had a fruitful and enjoyable afternoon. It was a great time for experience sharing between the mentors and mentees. Students surely had gained a lot through this precious moment. The event was successfully held and ended with joy.

Activities of the year

Technical Visit to the Shatin to Central Link Contract No. 1103 Diamond Hill Station

We have organized six technical visits and two workshops for the students this year. The first one was to visit one of the MTRC projects– Hin Keng to Diamond Hill Tunnels (Tunnel Boring Machine Section) on 3 October 2015, which allowed participants to learn more details about the Shatin to Central Link (SCL) project. MTR representatives first gave participants an introduction to the project, Tunnel Boring Machine (TBM) operations and challenges faced during the construction. Then participants went to the Slurry Treatment Plant (STP) to learn how the slurry was produced and tested for TBM 24 hours a day.

After the visit to STP, the representatives demonstrated a 1:1 size depressurizing chamber model and a TBM head model, and explained the procedure of maintaining the cutter head and the importance of the depressurizing process. Finally, participants entered the TBM launching shaft and went into the interior of the TBM to understand how the tunnel segments were installed.

Activities of the year

Technical Visit to the Hong Kong-Zhuhai-Macao Bridge Projects – Hong Kong Link Road

Another visit was made to the Hong Kong-Zhuhai-Macao Bridge (HZMB) Projects – Hong Kong Link Road on 9 March 2016 to introduce this ongoing construction project which consisted of a series of bridges and tunnels to connect the Hong Kong Special Administrative Region, Zhuhai City of Guangdong Province and Macao Special Administrative Region. In the visit, site engineers from Arup introduced the project background and part of the construction methods as well as the difficulties encountered in the project. Students also travelled on the sea to see the ongoing progress of the HZMB.

Activities of the year

Technical Visit to HKEx Data Centre

Technical visit to Hong Kong Exchanges and Clearing Ltd. (HKEx) Data Centre was held on 16 April 2016 for computer science and building services engineering students and alumni. The five-storey HKEx Data Center in Tseung Kwan O consolidated the primary data centers for all of HKEx's markets and served various functional cores including numerous data halls, building facilities operations, ancillary offices, canteen, recreational amenities, building management system as well as integrated physical security system. HKEx Data Center was also one of the most energy-efficient and green data centers in Asia which was awarded the LEED Gold Certificate. Before the guided tour, participants were briefed on its construction development, energy efficient design, facility management approach in a holistic view. After the briefing, visitors visited a variety of facilities in the data center building and understood how the dedicated facility management team effectively operated the data center. The visit was wrapped up by a fruitful sharing session between HKEx representatives and participants.

Activities of the year

CLP Career Series: Powering Hong Kong– 1-Day Visit to CLP Power Hong Kong Ltd

This year we initiated a Career Series to provide students with a continuous exposure to a certain engineering field and to maintain a close relationship with the industry. With the generous support from CLP Power Hong Kong Ltd. (CLPP), the career series with the theme of “Electrical & Mechanical engineering” was held to arouse students’ interest in power industry and public utilities. The series comprised two technical visits and two technical workshops.

Visit to CLPP was conducted on 27 January 2016. Students visited different core departments of CLPP, ranged from power generation, transmission to distribution. CLPP Engineer representatives shared their challenges faced during daily operation and maintenance. Innovative and most advanced power technology were also introduced. The visited spots included Smart Grid Experience Centre, Tai Po System Control Centre, Castle Peak Power Station and Black Point Power Station.

Activities of the year

CLP Career Series: 1-Day Technical Workshop in CLP Power HK Ltd Shatin Centre

Workshop in CLPP Shatin Centre was held on 9 March 2016. The CLPP Shatin Centre mainly served as CLP power system training base where it provides all kinds of advanced training facilities such as cable jointing workshop, mini transmission training towers, and simulated substation etc. Students visited various facilities to learn more about power system's operation. CLPP engineers not only taught technological knowledge but also introduced the importance of operational safety. Under supervision of field experts, students enjoyed their time gaining hands-on experience in operating switchgear and cutting electric cable.

CLP Career Series: 1-Day Technical Workshop in CLP Power HK Ltd Shatin Centre

Workshop in Castle Peak and Black Point Power Stations was organized on 16 March 2016. Different from the previous CLPP visit in January 2016, this workshop provided student with hands-on experience in power station operation. Apart from plant tour, students visited the gas turbine repair workshop and received technical training. Students got more familiar with the work in power station after CLPP representatives' sharing session about the challenges faced in daily operation and maintenance.

Activities of the year

CLP Career Series: Technical Visit to Town Island

The last visit in the series was held in Town Island on 2 April 2016 to understand the Hong Kong's first commercial-scale standalone renewable energy system. Students and alumni visited the first and second phases of the power supply project which was capable to lighting up 9600 compact fluorescent lamps. This "Zero emission" System could save an estimated 70,000kg of CO₂. During the visit, CLPP representatives showed their professionalism in explaining the renewable energy generation and storage system and answering the curious students' queries. Students and alumni were very satisfied with the guided tour.

Activities of the year

Sustainable Development Study Tour 2016 – Japan

The tour led by Ir. YM Chan and Mr. Kenny Ng, was organized successfully during 29th May– 4th Jun 2016(7 days) for both students and alumni to broaden their horizons. With the theme “Entechnol for Brightening Future Life”, we aim to appreciate Japan’s innovative technology and advanced engineering applications through visiting different manufacturing plants, museums and education institutes in Nagoya and Tokyo. We received overwhelming number of applications and 24 applicants was selected as delegates.

Delegates were given opportunities to see how automobiles and robots are used in modern manufacturing process from sophisticated factories of Rinnai, Nissan, Hitachi. We also visited a smart city called Kashiwa-no-ha, which is a community model created by Mitsui Fudosan Ltd, to see how to make good a balance between sustainability and economic development. It was definitely an unforgettable experience for us to visit the life safety learning centers to try the simulations of flooding and earthquake which gave us a sense of what to expect in real disasters. All the participants learnt a lot from the tour!

This study tour was jointly orgiansed with the Faculty of Engineering HKU, and sponsored by ARUP, CLP, HKE and Towngas.

Appreciation to our voluntary helpers

Each year, with the help from Engineering Society, HKUSU, we recruit students helpers from undergraduate and post-graduate students in engineering faculty. We also seek help from the alumni for assisting various events. As such, we would like to express our appreciation the helpers who voluntarily offered their fruitful help to the planning, arrangement and holding of the event mentioned above, which were crucial and essential for the success of these events!

Appreciation to our voluntary helpers

Appreciation to our voluntary helpers

Appreciation to our voluntary helpers

Here are some feelings from our helpers:

Vincent LAU

I was the Chairperson of Career Development. Throughout the year, my team (Mr. Milton CHAN, Mr. Oliver TSE and Ms. Grace TAM) and I planned and organized various technical visits, workshops and career talk for different engineering students, encouraging students and alumni to participate in events with different engineering themes to broaden their

horizons. It was my pleasure to serve HKUEAA to promote engineering.

I was the Chairperson of the Graduate Mentor Scheme (GMS). This is my first year to take in charge of GMS. I organized a mentor-mentee gathering and Mentors' Night Dinner. I also coordinated the application and selection of mentees and paid great efforts to match each mentee to a best fit mentor and subsequently organized the inauguration ceremony.

Seakay XIE

Milton CHAN

I have been joining HKUEAA since Year 1, and my involvement got more and more active after graduation. Right after joining HKUEAA's Sydney Tour, I started to help with technical visits and career talks. I have also helped with the Annual Dinner and Dance as well as Homecoming Dinner. I felt very fruitful in these events of large scale.

It is truly my honour and pleasure to contribute to HKUEAA through my involvement in organising the Annual Dinner and Dance, School Gala and Mega Sale, technical visits and workshops etc. All the amazing and unforgettable experiences have helped me becoming a better self. I must thank all the EXCO members for giving me all these great opportunities and putting their trust in me!
