「在小學時代，偶然讀到國父孫中山先生的《建國大綱》，我對工程建設已有了一個矇矓的憧憬。後來果然有機會考獲政府獎學金，入讀香港大學土木工程系。一九五一年入行，至今已逾五十年。」

根據自己過去數十年參與香港大型基建工程經驗，周子京撰寫了《工程人生 - 香港基建五十年》一書，介紹基建中各種現代設計和建造方法，管理技術的新發展，及執行時如何解決困難等。

Vivien Tye shares her poems in her recently published book "Quiet Songs". Vivien mentions in her book, "Our burden of living grows proportionately in weight and magnitude with the amount of love in our heart..... I dedicate my poems to those of my kind who, like me, carry the burdens of love every step of our life."

Alumna Iris Law, a senior statistician of the Government, recommends interested alumni to read a publication 'A Graphic Guide on Hong Kong's Development (1967 - 2002)' 《香港的發展 (1967-2002) — 統計圖表集》，which was released this summer by the Census and Statistics Department.

"To some people, official statistics publications may appear to be something which would only appeal to people who are impressively numerate, like economists, researchers and business professionals. But this

Graphic Guide is a shining example showing how statistics, if presented in an interesting and relatively simple manner, can attract a wide audience from the general public," says Iris, editor of the Graphic Guide. "...There are many stories about the development of a place where we were born and/or studied or have worked for years. And, indeed, a place where we have contributed in one way or another."

The publication involves also the inputs and efforts of many alumni. There are tens of professional statisticians in the Department who are HKU alumni, among whom are the Commissioner, Mr Frederick Ho 何永煊 (BSc 1966; CertEd 1971; MSocSc 1989) and Deputy Commissioner, Mr Fung Hing-wang 馮興宏 (BSocSc 1973; MSocSc 1983).
